

Car Rental Help Lines

Whenever you have a question you need answered, you don't want to have to scrounge around for the phone number. Even worse is when you call one number and then get lost in the automated menus that never seem to bring you the information you need or even connect to an actual person. Well, the next time you need to call a car rental company, the following chart should make the process simple. Included are the most popular and most needed help lines for a variety of situations, problems or concerns. Be aware that the Web sites for each company often have the answers to simple questions; visit these as an alternative to calling.
